COLEGIUL ECONOMIC „TRANSILVANIA”, TÂRGU MUREȘ, ROMÂNIA

Introduction

Colegiul Economic Transilvania from Târgu Mureș, Romania, is a high school specializing in economics, business, and management education. It offers programs in areas like accounting, finance, and entrepreneurship, preparing students for higher education or careers in the economic sector. The school is known for modern teaching methods, skilled staff, and extracurricular activities that provide practical experience. It also fosters international connections and supports students' personal development, helping them succeed in a global economy.

Objectives

- **Economic College Transilvania offers high-quality instruction that develops professional skills, creativity, and strong values. While respecting national and European values, we transform students into capable, accountable people who are prepared to thrive in the workforce and society.**

Human resource

- 63 teachers
- 6 teachers with PhD
- 40 teachers with the first teaching degree
- 6 teachers with the second teaching degree
- 8 teachers with permanent teacher certification
- 3 beginner teacher

The image shows the interior of a grand, historic building, likely a museum. The architecture is characterized by a massive, arched glass and iron roof structure, with intricate metalwork and large glass panels allowing natural light to filter in. The walls are made of dark stone with arched windows and doorways. In the center, a wide staircase with ornate metal railings leads up to a second floor. A statue in a white robe stands on the landing. The overall atmosphere is one of historical grandeur and architectural detail.

History

Origins and Early Development (1923–1948)

1923: Founding of the Higher Commercial School with teaching in Romanian, operating until 1936.

1934: Merger of the Vocational School of Commerce and the Higher Commercial School, forming the Commercial High School.

Post-1948: Significant development in commercial education.

1956: Formation of the Commercial School Group, training workers and mid-level staff for the national economy.

Expansion and Modernization (1966–2003)

1966: Establishment of The Economic High School, operating independently until 1972.

1972: Merger of the The Economic High School and the Commercial School Group, creating a strong educational unit.

1995: Renamed the Economic School Group for Tourism and Hospitality Services, adapting to the market economy demands.

“Transilvania” Economic College (2003-present)

2003: Renamed the The Economic College „Transilvania”, offering specializations in:

- Economics
- Administration
- Tourism
- Public food services.

2007-2008: Major renovation and modernization of the main building through a World Bank project, transforming it into a modern and functional school.

***EDUCATIONAL PROGRAMS AND
SPECIALIZATIONS***

The Economic College "Transilvania" from Târgu Mureș, Romania, offers a variety of educational programs and specializations tailored to equip students with practical skills and knowledge in the economic sector.

I. HIGH SCHOOL PROGRAMS (GRADES IX-XII)

Economic Technician

This specialization focuses on providing students with a comprehensive understanding of economic principles, accounting, and financial operations. Graduates are prepared to handle tasks related to financial transactions, budgeting, and economic analysis.

Public Catering Technician

This specialization is geared towards those interested in the hospitality industry. It covers areas such as food service management, event planning, and customer service, preparing students for roles in restaurants, hotels, and catering companies.

Commerce Technician

Students in this program learn the intricacies of commercial activities, including sales techniques, marketing strategies, and customer relationship management. The curriculum is designed to prepare students for careers in retail, wholesale, and other commercial enterprises.

I. POST-SECONDARY PROGRAMS

For students who have completed their high school education, the college offers post-secondary programs that delve deeper into specialized economic fields, providing advanced knowledge and practical experience.

III. Vocational Training:

The college provides various short-term courses aimed at enhancing specific skills in areas like accounting, entrepreneurship, and information technology, catering to both students and professionals seeking continuous development.
