NARRATIVE REPORT-MOBILITY EXPERIENCE IN MANAVGAT

The journey to Manavgat

On April 13, 2025 at 7:00 PM we met up with our group at the airport located in Cluj Napoca from where we had our flight to Istanbul. From Istanbul we had our flight to Antalya.

We arrived at the hotel in Antalya at 5:00 AM and headed straight to bed. We woke up at 8:00 AM, had breakfast and begun our day.

DAY 1-April 14, 2025

We arrived at school at 9:00 AM, where we were welcomed with some “ice-breaking” activities to get to know each other better. After that we formed working groups and attended some interesting workshops such as: “Digital tools for Modern Classrooms” where we learned how to use modern apps like Canva and AI tools for interactive lessons. In the afternoon, we visited the Side Old Town and the ancient amphitheater, two very beautiful places that contain a lot of history.

DAY 2-April 15, 2025

This day was a little more special due to it being dedicated to environmental themes. We begun our lectures with a presentation on environmental awareness and the importance of sustainable schools. After this we created teams and designed projects for sustainable schools. In the afternoon we took part in English classes, followed by activities that developed our social skills

through traditional games.

DAY 3-April 16, 2025

The day was dedicated to culture and nature. We took part in some cultural activities that helped us understand the natural values of Turkey.

DAY 4-April 17, 2025

In the morning we attended a workshop called: “What is Inclusive Education?” where we discussed the challenges faced by the students and brainstormed strategies for inclusive classrooms. After this we created educational posters and videos with inclusive messages, after which we attended various class activities.

PERSONAL IMPRESSIONS

The mobility experience in Manavgat was awesome. I had the amazing opportunity to learn about international collaboration, environmental protection and social inclusion. I got the chance to improve my English communication skills and had the best opportunity to make new friends. This mobility not only helped me with being a much more sociable person but also increased my knowledge about the importance of nature and inclusion.

THE RETURN HOME

On April 19, 2025 we returned home with some phenomenal memories and the desire to share our experience with our families and friends.
