We started our journey at the airport in Cluj-Napoca, Romania. After we arrived, we went to the security checkpoint, everything went well. We wandered around the airport for a few hours, until it was time for boarding at 6 AM. After we boarded the plane, we had a short flight of almost 2 hours. It was my first time flying, the feeling was unmatched to anything I had experienced before.

We arrived at Milan Bergamo Airport, we boarded a bus to the Central Station of Milan, it took 45 minutes to get there, we were all so tired from the flight, all of us slept for a bit. We left our luggage at the station, so we could visit the Dome and the center of Milan. We ate at a restaurant, right next to the Dome, they served mini pizzas, I personally didn't like it, but other colleagues said they really enjoyed them. After that we explored a bit of the surroundings, we found a beautiful garden of a church. We stayed in Milan for about 3 hours, after our time there was up, we went back to the station to get our luggage's and board the train to Turin. The train ride took about 2 hours.

When we arrived in Turin, we had to take a metro to the hotel. We were so tired from the journey, after we arrived at the hotel everyone went to their rooms to get prepared for dinner. We found a restaurant, 10 minutes away from our hotel, it was a classic Italian restaurant, I tried my best pizza until then. After that we all went back to the hotel to get some rest for the first day at school.

Day 1:

We had to wake up early, so we could eat the breakfast, it was served at the hotel's restaurant. There were a lot of different choices, on the first day I ate the basic, cereals and 2

croissants. After we all ate and were ready to go, we went to the metro, it was a 5-minute travel. At the school “Istituto D’Istruzione Superiore Marie Curie Carlo Levi” we were greeted by 5 students and 1 teacher. They led us to one of the classrooms. Some of our groups had to present their projects, the one about our school, and about Romania. After that, some of our colleagues went to the French class, and the rest of us spent time with the Italians. We went to get something to eat, there was a supermarket called “Il Gigante” right next to the school. We tried something that the Italians recommended called “Focaccia”, it was sooo good. After that we met up with the colleagues that went to the French class. We all went to the other part of the school. There we had an activity where we all had to write some things about ourselves and had to throw it in a circle so all the papers would shuffle, after that everyone would pick up one paper and had to go asking around whose paper is it. It was fun. After that my team had to present about Mures County, but before that the Italians made a presentation about Turin.

After all the school activities we went to the center. We visited almost all the streets around the center. We ate a really good ice cream. Also, we visited the Royal Museum, I really like the armory, but the rest was pretty cool too. After that long day we went to the train station to eat, then we went back to the hotel to relax for the rest of the night.

Day 2:

Today, we took the breakfast as usual. After we all ate, we went to the school to start the activities. We were introduced to a new class, they were very cool and fun. The Italians presented to us a PowerPoint about Turin and the circular economy, we also had to present the project about the circular economy. They made an activity

about how to start a business, it was a 2-day project. I was teamed with a Romanian colleague and 3 Italians. We had so much fun making the project, sadly they didn't speak English so well, but we managed to understand each other.

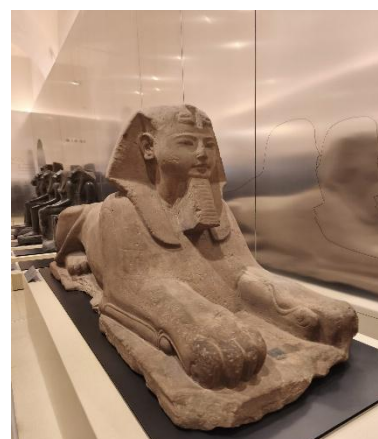

After we finished with the activities, we went to a restaurant next to the school with some teachers, the lasagna there was really good. Then we went back to the hotel, we stayed there for a few hours. After we relaxed, we met up in the center with some Italians from the school. We spent a few hours with them just walking around and having fun. I also went and bought an ice cream, from where I ate in the first day, I liked it a lot. There were a lot of beautiful bikes and supercars.

We all had so much fun that day, but sadly the night was coming so we had to go back to the hotel, we said our goodbyes and took the metro.

Day 3:

We woke up, ate and went to school. Some of our colleagues went to the French class and 1 girl to the Spanish class. The rest of us went into the Computer Lab, we presented again Mures County, and talked with the Italians. After that we all met in the Auditorium, we had to present our way of creating a business of the theme we got. After we finished the school program we went to a restaurant 2-minutes from the hotel. The pizza there, was the best I ever ate. We went back to the hotel to get ready for the Egyptian museum. It was a strange experience to see mummies. But in rest there were a lot of beautiful statues. It was a fun day, again I ate an ice cream, from the same place, I started to get addicted.

Day 4:

Another day, started with a beautiful breakfast, of course I ate cereals again, I am a picky eater. Sadly, it was the last day that we had to go to school, it was a hard goodbye from all the beautiful people I met there, with some, I lost a connection that could have lasted a lifetime. Sometimes I wish I could move there. At school they prepared for us a big table with some Italian foods and sodas. Also, we had to make a video about how we see Turin in our eyes, the video ended up really nice. We spent all week gathering photos and videos, but it wasn't a struggle because we had fun doing it. We had 2 hours remaining, give or take, to talk with the Italians, to say our goodbyes.

After saying our goodbyes, we went back to the hotel, to change of our school clothes. We went to, my favorite museum, from all of that we visited, “Museo Nazionale dell'Automobile”. It was a really beautiful experience, and I took a lot of photos. After the museum we went to a restaurant close to our hotel, the same as in day 2 and 3. It was really fun because one of our friends from the school, which is Romanian came with us to the restaurant. He is a very cool person, and it was really fun having him there. That night some Italians came with us to the hotel, and we talked for hours on the terrace.

Day 5:

The last day, we took our last breakfast and went to a science museum. The museum was pretty cool with a lot of practical activities. After the museum we went to eat, again pizza of course.

And after all these days spent in Turin, we had to take our luggage's from the hotel. We went to the train station and took a 40-minute ride to the airport. We went through security and had to wait a while for our boarding. The flight was just like the first one, but on this one I slept all the way. We landed in Bucharest, and took a bus back to our hometown, I slept all the way home.

The experience was one in a lifetime, it changed my perspective on a lot of things. Now I want to visit the world more than ever, I want to visit all Europe and see where life guides me. I wish everyone could experience this once in their life.
